I realize he's a guy and he was probably writing as a guy "for guys," but it was not necessary. In Obmascik's summer of climbing, he loses fifteen pounds, finds a few dozen man-dates, and gains respect for the history of these storied mountains home to cannibalism, gold rushes, shoot-outs, and one of the nation's most famed religious shrines. There's no real sense of the ego that pervades much of mountaineering literature, and I got the sense that he enjoyed his climbs for

the challenge more than the checklist.
