Previous translations were titled "Goethe the Scientist" and "Goethean Science".

I laid my hand on his heart – there was a deep silence – and I turned away to give free vent to my suppressed tears. Goethe's original draft of a Faust play, which probably dates from 1774, and is now known as the Urfaust was also published after his death. Anatomy and Embryology.

Written over a course of sixty years, it is small wonder that they are not great. In his discovery of the oneness of nature, he approached it with a certainty to discover in it oneness, and his discovery of the os intermaxillare in man, which influenced the development of comparative anatomy, is one of the by-products of his Spinozistic sentiments.
