Build a Resume Now. This, however, is not always the case. Beyond the JDK, there are a number of system services that will simplify the life of an administrator.

Local disk was eschewed in favor of largest storage are networks SANs and network

This is less about Hadoop specifically and applies to general system maintenance, monitoring, and administration. We live in a flawed world, and Hadoop is designed to survive in it by not only tolerating hardware and software failures, but also treating them as first-class conditions that happen regularly.
